

WorkForce Pro WF-C529RDTW

Fast print speeds with a smaller footprint, our latest A4 RIPS printer delivers low TCO and a low environmental impact.

High ink yields of up to 50,000 pages in black and 20,000 in colour make this a powerhouse for offices. Increase your business productivity with less intervention, a fast first page out time, and secure printing rules and workflow processes, all while reducing your printing costs and environmental impact.

Low running costs

High ink yields lower the need to order and replace supplies frequently, and help to deliver predictable print costs and a competitive Total Cost of Ownership (TCO). Also, inkjet technology with fewer replacement parts, lowers the hidden costs of servicing and intervention.

High productivity

A fast First Page Out Time (FPOT) of 4.8 secs in black and 5.3 secs in colour from ready mode, and print speeds of up to 24ppm in colour and mono (ISO speed) help to keep productivity high. An improved durability of 240k pages helps print more for longer. A maximum paper capacity of 830 sheets means less time spent refilling.

Low environmental impact

In addition to speeding up printing, the lack of heat needed by our inkjet technology also helps to cut the environmental impact of print by providing a low power solution with fewer supplies. The high ink yield means less waste from supplies, and you can rest assured from a lack of toner dust and ozone gas emissions.

Built for business

The WF-C529RDTW is one of the few A4 business single-function printers to offer secure, follow-me printing with Epson Print Admin.
